*There's a TerminEdge product for every application.*

## TERMINEDGE FASCIA

*When it comes to protecting the roofing system, the edge metal system is the roof's first line of defense against wind and water infiltration. OMG edge products are designed to help the roofer provide a better performing roof and win more jobs.*

### FOUR TERMINEDGE OPTIONS

OMG TerminEdge is an easy to install, ANSI/SPRI/FM 4435 ES-1 tested fascia system for virtually any commercial roofing assembly.

TerminEdge is available in four basic configurations:

- TerminEdge Fascia (Formed Galvanized Steel retainer)
- TerminEdge AR Fascia (Formed Aluminum retainer)
- TerminEdge EX Fascia (Extruded Aluminum retainer)
- TerminEdge EX MB Fascia (Extruded Aluminum retainer for MOD-BIT and BUR)

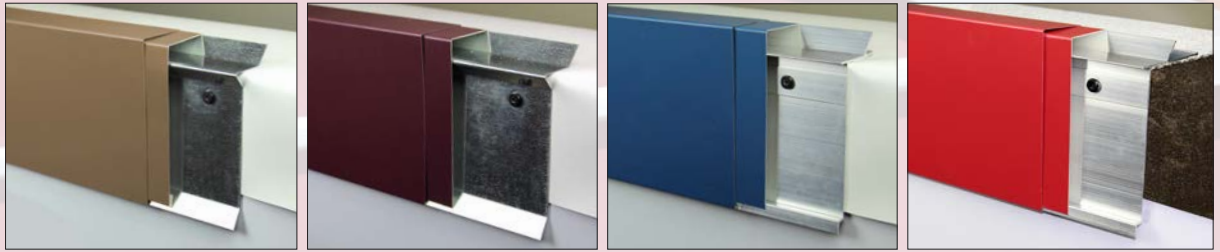

See table on the next page for detailed descriptions and differences.

There are three primary component parts to every TerminEdge System: the retainer, snap-on cover and matching splice plates.

The TerminEdge Fascia system includes a continuous retainer, decorative snap-on fascia cover and matching concealed 4-inch (101-mm) splice plates. TerminEdge retainers are self-locating and have pre-punched slots to accommodate thermal expansion and contraction. TerminEdge retainers and snap-on covers are supplied in 10-ft. (3.05-m) lengths and come with #14 Universal Fasteners that can be used in wood, steel or masonry applications. A full assortment of inside and outside miters, end caps, end terms, sumps, and spillouts are available to compliment any system.

### FEATURES & BENEFITS

- TerminEdge is ANSI/SPRI/FM-4435 ES-1 tested and offer FM windstorm classification ratings of 1-90 to 1-390.
- Formed galvanized steel, formed aluminum and heavy duty extruded aluminum retainer options provide maximum flexibility, whether the roof is single-ply, modified or BUR. See chart on the next page for detailed information.
- TerminEdge systems are available in formed sizes that range from 3.75- to 13-inches (95- to 330-mm) to accommodate most nailer heights.
- Extruded models come in sizes 3.75, 5.25, 6.75, 8.25 and 11.25.
- Retainers are pre-punched and self locating for fast and simple installation.
- TerminEdge is available with a 25 year, 155mph, Category 5 windstorm warranty.

## SPECS

	TERMINEDGE FASCIA	TERMINEDGE AR FASCIA	TERMINEDGE EX FASCIA	TERMINEDGE EX MB FASCIA
APPLICATION	Single-Ply Membrane		Single Ply Membrane, MOD-BIT and BUR	
RETAINER MATERIAL	20-ga. Galvanized Retainer	.050-ga. Aluminum Retainer	Extruded Aluminum Retainer	
FASCIA COVER THICKNESS	Galvanized 24-ga. or 22-ga. / Aluminum .040-in., .050-in. or .063-in.			
FM RATING	Rated up to 1-390	Rated up to 1-285	Rated up to 1-255	
STANDARD HEIGHTS	3.75-in., 5.25-in., 6.75-in., 8.25-in. and 11.25-in. (11.25-in. not available for MOD-BIT application)			
CUSTOM HEIGHTS	3-in. Min. / 13-in. Max.		TerminEdge XT & TerminEdge XT MB with formed extender 3.75-in. Min. / 13-in. Max.	
SPLICE PLATES	4-in. wide concealed splice plates are provided in matching colors to the fascia cover			
PRE-PUNCHED SLOTS	3/16-in. x 3/8-in. slots for fasteners at 12-in. on-center.			
INSTALLATION	Up to 5.25-in. requires 1 row of 10 fasteners 6.75-in. and taller requires 2 rows of 10 fasteners		All sizes require 1 row of 10 fasteners	
FASTENER	#14 x 1½ Universal fastener for wood, metal and masonry (pre-drilling with 3/16-in. pilot required for masonry applications)			
WARRANTY	25-Year / 155 mph Warranty Category 5

# NATIONWIDE CUSTOMER SUPPORT

OMG is the leading US supplier of roofing fasteners, roof insulation adhesives, retrofit roof drains, pipe supports, roof repair tape, productivity tools and engineered roof edge systems.

We offer a full line of engineered edge products for every application, including:

- Fascia
- Coping
- Gutters + Downspouts
- Custom metal fabrication

Contact OMG EdgeSystems for all of your edge needs from project measuring to job starts and on-site training.

*For more information  
please call 800-892-9173.*

## EDGE SYSTEM OPTIONS FOR EVERY PROJECT

### SAFEGUARD NP FASCIA

SafeGuard NP Fascia grips the roofing membrane without the need for exposed fasteners. Standard face sizes are 5.5-in., 7-in., 8.5-in. and 10-in. Custom sizes available upon request.

SafeGuard NP Fascia is designed to prevent shrinking, pull-back and thermal separation of BUR and Mod-Bit roofing plies from the roof's edge. Available in four standard face sizes.

### PERMASNAP COPING

PermaSnap is our most popular coping product, and designed with an internal gutter system that eliminates the need for caulked joints and messy butyl sealants.

PermaSnap is ANSI/SPRI/FM 4435 ES-1 approved, comes with a up to 25-year, 155mph wind warranty and is available with welded corners, end caps and other accessories.

### HICKMAN DESIGN SERVICES

We specialize in custom design and manufacturing. With some of the most flexible and advanced engineering technologies in the industry, Hickman Design Services can design and manufacture virtually anything you can imagine.

When it's time to turn your big ideas into reality, it's time to contact Hickman Design Services at (800) 892-9173.
